Australian Standard 2456—1982

METHOD OF SAMPLING FIBRE BUILDING BOARDS

- STATE FORESTS LIBRARY -

*WITHDRAWN
JAN 1998*

**PUBLISHED BY THE STANDARDS ASSOCIATION OF AUSTRALIA
STANDARDS HOUSE, 80 ARTHUR ST, NORTH SYDNEY, N.S.W.**

Incorporated by Royal Charter

THE FOLLOWING SCIENTIFIC, INDUSTRIAL, PROFESSIONAL AND GOVERNMENTAL organizations and departments were officially represented on the committee entrusted with the preparation of this standard:

- Australian Council of Furniture Manufacturers Associations
- Australian Institute of Building
- Australian Particleboard Manufacturers Association
- CSIRO, Division of Building Research
- Housing Commissions
- Master Builders Federation of Australia
- Lending Institutions
- Plywood Association of Australia Ltd
- Royal Australian Institute of Architects
- Sawmillers Associations
- State Forestry Departments
- Timber Merchants Associations

This standard, prepared by Committee TM/105, Reconstituted Wood Products, was approved on behalf of the Council of the Standards Association of Australia on 19 February 1982, and was published on 5 April 1982.

To keep abreast of progress in industry, Australian standards are subject to continuous review and are kept up-to-date by the issue of amendments or new editions as necessary. It is important therefore that standards users ensure that their standards are up-to-date. Full details of all SAA publications will be found in the Annual List of Australian Standards; these details are supplemented by listings in the SAA monthly journal 'The Australian Standard'. Information on the Annual List and 'The Australian Standard' may be obtained from any sales office of the Association, where details are also available of the current status of individual standards. Suggestions for improvements to published standards, addressed to the head office of the Association, are welcomed.

First published 1982

This standard was issued in draft form for comment as DR 80061.

ISBN 0 7262 2489 8

PREFACE

This standard was prepared by a subcommittee of the Association's Committee on Reconstituted Wood Products. It provides procedures for the sampling of fibre building boards for determination of physical and mechanical properties.

It is stressed that this standard is limited only to sampling. The testing of fibre building boards is dealt with in AS 2457.

This standard requires reference to the following Australian standards:

- AS 1057 Terms Used in Quality Control
- AS 2457 Methods of Testing Fibre Building Boards
- AS 2458 Hardboard
- AS 2459 Organic Fibre Insulating Board
